EPA Region 5 Records Ctr.

387536

Dion,

Thanks for your September 28th e-mail response, which clarified EPA's comment concerning dust migration in the Human Health Risk Assessment conditional approval letter dated September 21, 2004. We now understand the EPA's comment to mean that the dust migration information previously obtained and "submitted in different reports at different times" should be summarized in the RI report.

We further understand that you will coordinate a time on Friday, October 1, 2004 for Jeff Margolin and Ryan Loveridge to discuss the EPA's comments in its Ecological Risk Assessment conditional approval letter dated September 21, 2004.
